

UNITED WAY MUMBAI'S EFFORTS TO TAKE COVID-19 VACCINATION TO UNDERSERVED COMMUNITIES ACROSS THE COUNTRY

United Way Mumbai has been conducting COVID-19 vaccination-related work to help augment the government's monumental task of vaccinating individuals against COVID-19 across India. Currently, our efforts aim to ensure that everyone from underprivileged and hard to reach communities gets vaccinated.

The map below details the districts in which we have been working through our interventions.

Target
50,00,000 CITIZENS

Current Reach
11,95,967 INDIVIDUALS

WE AIM TO REACH

5800
VILLAGES & COMMUNITIES

30
DISTRICTS

12
STATES

UNITED WAY MUMBAI'S EFFORTS TO TAKE COVID-19 VACCINATION TO UNDERSERVED COMMUNITIES ACROSS THE COUNTRY

We have been working on reaching our targets through various interventions as listed below

Vaccination centres being strengthened with medical supplies and equipment for better infection, prevention control

One-on-one health enquires & facilitation of registrations for those who don't have the technological means

Mass awareness drives conducted in the communities to explain merits of vaccination, break vaccine hesitancy

Transportation of people from remote rural and tribal areas to vaccination centres and ensuring completion of two doses

Vaccine on Wheels – taking the vaccine to the door steps of difficult-to-access communities

Gearing up for booster doses and vaccinating children in the future
